Confirm the site URL, path, admin e-mail and file/directory chmods

If URL and Path looks correct then please do not change. If you are not sure then please contact your ISP or administrator. Usually the values displayed will work for your site.

Enter your e-mail address, this will be the e-mail address of the site SuperAdministrator.

The permission settings will be used while installing mambo itself, by the mambo addon-installers and by the media manager. If you are unsure what flags shall be set, leave the default settings at the moment. You can still change these flags later in the site global configuration.
