

INTRODUCTION

The International Seminar on Dynamic Revitalisation of Java Fishing Port and Capture Fisheries on Promoting the Indonesian Fishery Development and the launching of "Atlas of Fisheries dan Fishing Port in java " successfully held in Bogor - West Java -, 6-7 June 2005, with the big number of 150 participants from all region in Java and other country such as French.

Here in this opportunity, I would like to express our greatest gratitude to all participant and supporters and financially for their enormous and enegetic input to the Seminar on Dynamic Revitalisation of Java Fishing Port and Capture Fisheries on Promoting the Indonesian Fishery Development". Here, the Proceeding is ready to go for the world-wide distribution with the 12 primary papers and 6 secondary papers.

The Seminar was started with the Main Session of Indonesian Gouvernment by (The Ministry of Marine Affairs and Fisheries): Directorate General of Capture Fisheries, Directorate of Marketing and Institution _Capacities Increasing, etc. The Scientific Session followed as the one day presentation and discussion in two separated topic on the capture fisheries. Fisheries cooperative and fishing port in Indonesia and France.

At the last moment of this message, we would like to express our greatest gratitude to the Government of Indonesia through Bogor Agricultural University and the Government of French through Universite de Nantes and CNRS (Centre National de Recherche Scientifique) Nantes. Constructively financing mostly coming from Embassy of French in Jakarta. I wish to extend my special gratitude to Ministry of Marine Affairs and Fisheries for its sponsorship.

On behalf all the members and supporters, we commend this publication to you as a record of this first challenging Seminar on Dynamic Revitalisation of Java Fishing Port and Capture Fisheries on Promoting the Indonesian Fishery Development with the best wishes to all you.
