

Development and the environment: human capital as a means to sustain.

Personal Authors: [Mulatsih, S.](#)

Author Affiliation: Animal Husbandry Faculty, Bogor Agricultural University, Bogor, Indonesia.

Editors: No editors

Document Title: Tropenlandwirt, Beiheft

Abstract:

This paper defines sustainable development, and explores the role of human resources in sustainable development. It also discusses the relationship between humans and the environment, highlighting a framework that considers the economic system and the environment as a closed system.
