

**DAFTAR PUBLIKASI ILMIAH (1993-2003):**

1. Boediono A, Suzuki T, Godke RA. 2003. Comparison of hybrid and purebred in vitro-derived cattle embryos during in vitro culture. *Anim Reprod Sci*, 78:1-11.
2. Mohamad K, Budiarta K, Adnyane IKM, Djuwita I, Boediono A. 2003. Siklus estrus dan bobot uterus setelah autotransplantasi ovari secara subkutan pada mencit yang diberi atau tanpa superovulasi. *Hayati*, 10(3):100-105.
3. Jaswandi, Setiadi MA, Boediono A, Toelihere MR, Sukra Y. 2003. Tingkat kematangan in vitro oosit domba: berbagai konsentrasi HEPES dalam medium pematangan dan jumlah oosit dalam straw. *Jurnal Peternakan dan Lingkungan*, 9(1):1-7.
4. Jaswandi, Boediono A, Setiadi MA. 2001. In vitro maturation and fertilization of ovine oocytes in system with absence of 5% CO<sub>2</sub>. *Reprotech*, 1:19-22.
5. Rosadi B, Boediono A, Agungpriyono S, Mohamad K, Sukra Y. 2001. Chimera production by embryo aggregation method and cultured in vitro without zona pellucida in mice. *Reprotech*, 1:23-28.
6. Boediono A. 2001. Sperm immobilization prior to intracytoplasmic sperm injection (ICSI) and oocyte activation improve early development of microfertilized goat oocytes. *Reprotech*, 1:29-34.
7. Boediono A, Rusiyantono Y, Mohamad K, Djuwita I, Herliatien. 2000. Perkembangan oosit kambing setelah maturasi, fertilisasi dan kultur *in vitro*. *Media Veteriner*, 7(4):11-17.
8. Rusiyantono Y, Boediono A, Sukra Y, Toelihere MR, Supriatna I, Purwantara B. 2000. Pemakaian ethylene glycol dan glycerol untuk vitrifikasi embrio kambing in vitro. *Pros. Seminar Nasional Bioteknologi Pertanian*. pp: 47-51.
9. Noviana C, Boediono A, Wresdiyati T. 2000. Morfologi dan histomorfometri testis dan epididymis kambing kacang (*Capra sp.*) dan domba lokal (*Ovis sp.*). *Media Veteriner* 7(2):12-16.
10. Sali T, Torlihene MR, Boediono A, Tappa B. 2000. Keefisienan albumen sebagai media pemisah spermatozoa sapi pembawa kromosom X dan Y. *Hayati*, 7:106-109.
11. Kuramoto T, Boediono A, Sugioka M, Umebayashi T, Fukuda K, Motoishi M, Komatsu K, Takihara H, Saito H. 2000. The use of frozen-thawed spermatozoa obtained from alloplastic spermatocele for intracytoplasmic sperm injection. *Jpn. J. Fertil. Steril.*, 45:233-237.
12. Boediono A, Suzuki T, Li LY, Godke RA. 1999. Offspring born from chimeras reconstructed from parthenogenetic and in vitro fertilized bovine embryos. *Mol. Reprod. Dev.*, 53:159-170.

13. Tarliyah L, Boediono A, Walujo D. 1999. Pergerakan spermatozoa Leah madu *Apis mellifera* L. pada berbagai suhu penyimpanan dalam media pengencer dengan kadar glukosa yang berbeda. *Media Veteriner* 6(4):15-20.
14. Mohamad K, Eriani K, Djuwita I, Boediono A. 1999. Perkembangan in vitro dan in vivo embrio mencit tanpa zona pelusida. *Media Veteriner*, 6(2):1-4.
15. Murakami M, Suzuki T, Boediono A. 1998. Chimeric blastocysts by aggregation between parthenogenetic and fertilized bovine embryos. *Jpn. J. Fertil.Steril.*, 43:151-154.
16. Boediono A, Sumantri C, Sizuki T. 1998. Chimera production in bovine and its sperm capacity. *Bull. Anim. Sci. Supp.* 36-43.
17. Saili T, Toelihere MR, Boediono A, Tappa B. 1998. Pengendalian jenis kelamin anak melalui sexing spermatozoa untuk reproduksi ternak. *Warta Biotek*, 12:1-5.
18. Ooe M, Rajamahendran R, Boediono A, Suzuki T. 1997. Ultrasound-guided follicle aspiration and IVF in dairy cows treated with FSH after removal of the dominant follicle at different stages of the estrous cycle. *J Vet Med Sci*, 59:371-376.
19. Boediono A, Kuramoto T, Sugioka M, Umebayashi T, Fukuda K. 1997. The outcome of assisted reproductive technology (ART) program in different season. *Proc. 10<sup>th</sup> World Congress of IVF and Assisted Reproduction* 861-864.
20. Kuramoto T, Boediono A, Sugioka M, Umebayashi T, Fukuda K, Motoishi M, Komatsu K. 1997. Pregnancies from obstructive azoospermia patients after intracytoplasmic sperm injection (ICSI) with testicular spermatozoa. *Proc. 10<sup>th</sup> World Congress of IVF and Assisted Reproduction* 523-525.
21. Sumantri C, Boediono A, Ooe M, Murakami M, Saha S, Suzuki T. 1997. The effect of sperm-oocyte incubation time on in vitro embryo development using sperm from a tetraparental chimeric bull. *Anim Reprod Sci*, 48:187-195.
22. Sumantri C, Boediono A, Ooe M, Saha S, Suzuki T. 1997. Fertility of sperm from a tetraparental chimeric bull. *Anim Reprod Sci*, 46:35-45.
23. Saha S, Otoi T, Takagi M, Boediono A, Sumantri C, Suzuki T. 1996. Normal calves obtained after direct transfer of vitrified bovine embryos using ethylene glycol, trehalose, and polyvinylpyrrolidone. *Cryobiology*, 33:291-299.
24. Suzuki T, Boediono A, Takagi M, Saha S, Sumantri C. 1996. Fertilization and development of frozen-thawed germinal vesicle bovine oocytes by a one-step dilution in vitro. *Cryobiology*, 33:515-524.
25. Sakakibara H, Kudo H, Boediono A, Suzuki T. 1996. Induction of twinning in Holstein and Japanese Black cows by ipsilateral frozen embryo transfer. *Anim Reprod Sci*, 44:203-210.

26. Boediono A, Suzuki T. 1996. Chimeric blastocysts produced by aggregation between parthenogenetic and fertilized bovine embryo. *Ind. J. Biotech.*, June: 36-40.
27. Khan NHA, Kikkawa Y, Sumantri C, Saha S, Murakami M, Boediono A, Suzuki T. 1996. Effect of gas atmosphere on the development of bovine embryos using a simple portable incubator. *J. Jpn. Embryo Transfer*, 18:113-123.
28. Saha S, Rajamahendran R, Boediono A, Sumantri C, Suzuki T. 1996. Viability of bovine blastocysts obtained after 7, 8 or 9 days of culture in vitro following vitrification and one-step rehydration. *Theriogenology*, 46:331-343.
29. Boediono A, Suzuki T. 1996. In vitro development of Holstein and Japanese Black breeds embryo. *Media Veteriner*, 3(1):3-15.
30. Boediono A, Saha S, Sumantri C, Suzuki T. 1995. Development in vitro and in vivo of aggregated parthenogenetic bovine embryos. *Reprod. Fertil. Dev.*, 7:1073-1079.
31. Suzuki T, Saha S, Sumantri C, Takagi M, Boediono A. 1995. The influence of polyvinyl pyrrolidone (PVP) on freezing of bovine IVF blastocysts following biopsy. *Cryobiology*, 32: 505-510.
32. Boediono A. 1995. Use of the recent animal reproduction biotechnology for the improvement of animal production and quality. *Inovasi*, 6: 26-33.
33. Boediono A, Takagi M, Saha S, Suzuki S. 1994. The influence of day 0 and day 7 superovulated cow serum during development of bovine oocytes in vitro. *Reprod Fertil Dev*, 6:261-264.
34. Boediono A, Suzuki T. 1994. Post-implantation development of parthenogenetic bovine embryo. *Jpn. J. Study of Anim Reprod*, 11:1156-1160.
35. Saha S, Takagi M, Boediono A, Suzuki T. 1994. Direct rehydration of in vitro fertilized bovine embryos after vitrification. *Veterinary Record*, 134:276-277.
36. Takagi M, Otoi T, Boediono A, Saha S, Suzuki T. 1994. Viability of frozen-thawed bovine IVM/IVF embryos in relation to aging using various cryoprotectants. *Theriogenology*, 41:915-921.
37. Boediono A, Oe M, Yamamoto M, Takagi M, Saha S, Suzuki T. 1993. Production of chimeric calves by aggregation of in vitro bovine embryos without zonae pellucidae. *Theriogenology*, 40:1221-1230.
38. Takagi M, Boediono A, Saha S, Suzuki T. 1993. Survival rate of frozen-thawed IVF bovine embryos in relation to exposure time using various cryoprotectants. *Cryobiology*, 30:306-312.
39. Suzuki T, Yamamoto M, Takagi M, Boediono A, Saha S, Sakakibara H, Oe M. 1993. Pregnancy rate and survival in culture of in vitro fertilized bovine embryos frozen in various cryoprotectants and thawed using one-step system. *Theriogenology*, 40:651-659.
