

# International Seminar on Chemical Engineering Soehadi Reksowardojo 2011

## Table of Contents

| Category               | Title   |
|------------------------|---|
| <a href="#">APC-01</a> | The Effect Of Emulsifier To Methyl Ester Sulfonate As Chemical Flooding Material  |
| <a href="#">APC-02</a> | Modified SIs With Epoxide From Oleic Acid And Hydrogen Peroxide In Order To Increase The Surfactant's Qualities For Eor   |
| BPE-01                 | Optimasi Proses Produksi Biodiesel Dari Mikroalga Jenis Chlorella Dengan Metode <i>Central Composite Design</i>   |
| <a href="#">BPE-02</a> | Optimization Of Production Penicillin Acylase By <i>Escherichia Coli</i>  |
| BPE-03                 | Crude Selulase Production From Phanerochaete Chrysosporium By Using Hardwood As A Media   |
| BPE-04                 | Initial Study Biosensors Ferrooxidans Immobilized For Measurement Ascorbic Acid   |
| BPE-05                 | Palm Oil Mill Effluent (Pome) Utilization For Protein Production Of Spirulina   |
| <a href="#">BPE-06</a> | Effect Time Of Feeding Volatile Fatty Acids From Palm Oil Mill Effluent (Pome) To Production Of Polyhydroxyalkanoat (Pha) By <i>Ralstonia Eutropha</i>                          |
| <a href="#">BPE-07</a> | Development Of Bioreactor For Stem Cell Applications: Measuring Stem Cell Concentration In Bioreactor   |
| <a href="#">BPE-08</a> | Steel Corrosion Rate By Sulfate Reducing Bacteria From Lapindo Mud  |
| BPE-09                 | Production Of Glycerol 3-Phosphate Using Thermococcus Kodakaraensis Kod1 Glycerol Kinase And In Vitro Atp-Regenerating System Of Thermus Thermophilus Hb27 Polyphosphate Kinase |
| BPE-10                 | Preliminary Study Of Biotransformation Of Aldehyde And Ketone By Clostridium Saccharoperbutylaceticum N1-4  |
| <a href="#">BPE-11</a> | Rice Bran Oil Processing From Ir64 Rice Bran By Fermentation With Yeast   |
| <a href="#">BPE-12</a> | Intensifikasi Proses Tanaman: Meningkatkan Produktivitas Dan Kualitas Produk Tanaman Dengan Pengembangan Bioreaktor Tanaman   |
| <a href="#">CRE-01</a> | Studi Kinetika Pembukaan Cincin Oksiran Pada Epoksi Jarak Pagar Dengan Metanol Dan Identifikasi Poliol  |
| CRE-02                 | Hydrocarbon Gasoline Fraction From Jatropha Oil Via Alkali -Saponification And Catalytic Cracking Using $B_2O_3/Al_2O_3$ Catalyst   |
| CRE-03                 | Karakterisasi Katalis Heterogen Arang Aktif Tersulfonasi Untuk Hidrolisis Selulosa Menjadi Glukosa  |
| CRE-04                 | Biodegradable Polymer From Carbonylative Polymerization Of Undecenol Using Cobalt Phosphine Complexes   |

|                        |   |
|------------------------|---|
| CRE-05                 | Synthesis Of Bioetbe: The Advantage Of Solid Acid Catalyst Fo Synthesis A New Component Of Gasoline   |
| <a href="#">CRE-06</a> | Determination Of Kinetic Rate Of N-Hexane Oxidation Over Pt/ $\Gamma$ -Al <sub>2</sub> O <sub>3</sub> In A Fixed Bed Reactor                                    |
| <a href="#">CRE-07</a> | Effect Of Process Conditions On The Characteristics Of Carbon Nanotubes By Catalytic Decomposition Of Methane Over Ni-Cu-Al Catalyst                            |
| <a href="#">CRE-08</a> | Effect Of Temperature On Ethanol Electro-Oxidation On Carbon Supported Pt, Ptru And Ptsn Catalysts  |
| <a href="#">CRE-09</a> | Hydrogren Peroxide Study On Photocatalytic Decolourization Of Reactive Orange 16 Dye  |
| CRE-10                 | Ceramic Membrane Contactor To Recover Iodine From Brine Water   |
| <a href="#">CRE-11</a> | Evaluation Kinetics Of Hydrodesulfurization Dibenzothiophene Using Nimo / $\Gamma$ -Al <sub>2</sub> O <sub>3</sub> Catalyst                                     |
| <a href="#">CRE-12</a> | Characterization Of $\Gamma$ -Alumina Catalyst Support Prepared From Belitung Kaolin  |
| <a href="#">CRE-13</a> | Determining Rate Parameters Of Langmuir-Hinselwood Type Kinetics For Methane Oxidation Over Pt/ $\Gamma$ -Al <sub>2</sub> O <sub>3</sub> In A Fixed Bed Reactor |
| DSC-01                 | Cfd Modeling Of High Performance Vane – Cyclone Mist Eliminator   |
| <a href="#">DSC-02</a> | Dynamic Modeling For Propylene Homopolymerization In Industrial Loop Reactors   |
| DSC-03                 | Performance Evaluation Of Multicomponent Distillation Control System Using Steady State And Dynamic Process Modelling Case Study: Debutanizer Column            |
| <a href="#">DSC-04</a> | Dynamic Simulation Of Anti Surge Control For Two Stage Centrifugal Gas Compressor   |
| <a href="#">DSC-05</a> | Computer Aided Product Design Of Green Diesel From Biofuels   |
| <a href="#">DSC-06</a> | Scaled D-Optimal Design A Novel Approach For Improving Parameter Precision  |
| DSC-07                 | Tuning Method Application Of Level Controller In Process Control Laboratory, Chemical Engineering Department, Politeknik Negeri Malang                          |
| DSC-08                 | Control Strategy For Outlet Temperature Of Heat Exchanger Networks By Using Pid And Mpc   |
| DSC-09                 | Geometry Effects Of Upstream Conditions On The Internal Flow Characterictics In Shell And Tube Heat Exchanger   |
| <a href="#">DSC-10</a> | Simulation Process Water Treatment For Boiler   |
| <a href="#">DSC-11</a> | Supply Chain Modeling And Control System Design Of Fuel Oil Transfer Through Pipeline   |
| <a href="#">DSC-12</a> | Design And Control A Methanol Synthesis Process In A Multi Tube Plug Flow Reactor With Recycle Using Pi, Pid Controllers And Mpc                                |

|                        |  |
|------------------------|--|
| <a href="#">DSC-13</a> | Simulation And Optimization Of Coupling Reaction Of Methanol Synthesis And Isopropyl Alcohol Dehydrogenation |
| EDU-01                 | Tanggapan Pendidikan Teknik Kimia Terhadap Perkembangan Perancangan Produk Kimia                             |
| EDU-02                 | A Chemical Engineering Laboratory Module On Soap Production  |
| <a href="#">EDU-03</a> | Teaching Chemical Product Design ar Universitas Indonesia  |
| <a href="#">EST-01</a> | Application Of Biofilm System In Treating Palm Oil Mill Effluent (Pome)                                      |
| EST-02                 | A Feasibility Study Of Pome Pretreatment Using Wild Algae  |
| <a href="#">EST-03</a> | Index Based Inherent Safety Aessment At Early Stage Of Process Design  |
| FST-01                 | Alternative Method Using Co2 For Tofu Perservation   |
| <a href="#">KEY-01</a> | Oleochemical Products  |
| <a href="#">KEY-02</a> | Current Status And Issues Of Biofuels  |
| <a href="#">MST-01</a> | Aluminum Corrosion In Citric Acid Solution   |
| <a href="#">MST-02</a> | An Experience Of Scalling-Up Paste Glue Production Of Gummed Tape From Laboratory Scale Experimental Data    |
| <a href="#">MST-03</a> | Physical Characteristics Of Biodegradable Foam From Mixed Hominy Feed And Cassava Starch                     |
| <a href="#">MST-04</a> | Synthesis And Characterization Of Natrium Lignosulfonate   |
| <a href="#">MST-05</a> | Natural Rubber Powder Production From Latex: Equipment Design And Modeling                                   |
| <a href="#">MST-06</a> | Synthesis And Characterization Of Cellulose Based Superabsorbent Polymer Composites                          |
| <a href="#">MST-07</a> | Development Of Non Petroleum Base Low lft Surfactant For Improving Oil Recovery                              |
| <a href="#">MST-08</a> | Accelerated Chamois Leather Tanning Process Using Hydrogen Proxide As An Oxidizing Agent                     |
| MST-09                 | Factorial Design Analysis Of Compost Granulation   |
| MST-10                 | Structure-Property Relationship In Layered-Silicate / Flexible Polyrethane Foam Nanocomposite                |
| <a href="#">MST-11</a> | Utilization Of <i>T.Ferrooxidans</i> Bacteria Activity In Producing Bioelectricity With Membrane Technology  |
| <a href="#">POS-01</a> | Accelerated Chamois Leather Tanning Process Using Oxidizing Agent  |

|                        |   |
|------------------------|---|
| <a href="#">POS-02</a> | The Process Of Analyzing Cu Is A Solution On Toward A Green Chemistry   |
| <a href="#">POS-03</a> | Pengembangan Model Pembelajaran Praktikum Kimia Melalui Dry Lab Pada Pembelajaran Jarak Jauh  |
| <a href="#">RET-01</a> | Degradation Of Biodiesel During Storage According To Total Acid Number And Viscosity  |
| RET-02                 | Production Of Biohydrogen From Synthetic Tapioca Wastewater In Anaerobic Process  |
| <a href="#">RET-03</a> | Characteristic Of Gas-Liquid Contactor For Absorption Of Toluene Using Oils   |
| <a href="#">RET-04</a> | Measurement Of Auto-Oxidation Kinetics Of Methyl Oleate-Methyl Laurate Mixture As A Biodiesel Model System  |
| <a href="#">RET-05</a> | Enzymatic Hidrolisis Of Rice Straw With Alkaline Pretreatment For Hidrogen Production   |
| RET-06                 | Producing Absolute Ethanol With Distilation And Adsorbtion By Molecular Sieve 3a  |
| RET-07                 | Production Of Biodiesel By Enzymatic Transesterification Via Non-Alcohol Route Using Immobilized Biocatalyst In Column Technology Packed                      |
| RET-08                 | Proses Produksi Etanol Grade Bahan Bakar Dengan Proses 'Wet Adsorption-Distilation'   |
| <a href="#">RET-09</a> | Biohydrogen Technological Innovation Into Electrical Energy By Fuel Cell Technology   |
| RET-10                 | Biomass To Liquid In Indonesia: Ft-Fuel Or Methanol   |
| RET-11                 | Biogas Production From Glycerol Derived From Biodiesel Manufacturing  |
| <a href="#">RET-12</a> | Transformation Of Jatropha Seed To Biodiesel By In Situ Transesterification   |
| <a href="#">RET-13</a> | Biodiesel Production From Palm Fatty Acid Distillate (Pfad) Using Reactive Distillation   |
| <a href="#">RET-14</a> | The Stability Of Coal-Oil Mixtures As An Alternative Fuel Oil Using Dimensionless Number Analysis   |
| <a href="#">RET-15</a> | Determination Of Minimum Trace Metals (Nickel And Cobalt) Requirements For Obtaining Optimum Biogas Production In The Fermentation Of Palm Oill Mill Effluent |
| <a href="#">RET-16</a> | Studies On The Reaction Kinetics Of Anaerobic Fermentative Hydrogen Production By Enterobacter Aerogenes  |
| <a href="#">RET-17</a> | Preparation, Characterization, And Activation Of Catalyst Nio/Al2o3 For Synthesis Of Diesel-Like Hydrocarbon From Jatropha Oil Through Catalytic Pyrolysis    |
| RET-18                 | Esterification Of Palm Fatty Acid Distillate With Ethanol   |
| <a href="#">RET-19</a> | Natrium Hydroxide (Naoh) As Alkaline Hydrolysis On Pretreatment Of Biogas Production From Water Hyacinth ( <i>Eichornia Crassipes</i> )                       |
| RET-20                 | Closed Loop Double Stage Husk <i>Jatropha</i> digester  |

|                        |  |
|------------------------|--|
| RET-21                 | Conversion Of Whey From Tofu Into Biogas By Anaerobic Batch Process  |
| <a href="#">RET-22</a> | Effect Of Blending Among Biodiesels On The Properties Of Oxidation Stability   |
| <a href="#">RET-23</a> | Drying And Pyrolysis Of Kraft Pulp Mill's Sludge Cake  |
| RET-24                 | Steaming And Enzymatic Hydrolysis Of Empty Palm Oil Fruit Bunch To Produce Monosaccharides   |
| <a href="#">RET-25</a> | Biorefinery Preliminary Studies: Integration Of Slurry And Co2 Gas As Biomethane Digester Waste For Microalgae Scenedesmus Sp. Growth. |
| RET-26                 | The Hydrothermal Treatment For Production Of Solid Biofuel From Sugarcane Bagasse  |
| <a href="#">SPT-01</a> | Removal Of Ammonia Concentration (Nh4+-N) In Leachate Using Packed Column Stripping Process For Biogas Raw Material                    |
| <a href="#">SPT-02</a> | Vapour-Liquid Equilibrium Study For Benzene And Several Types Of Oil As Absorbent  |
| <a href="#">SPT-03</a> | Cfd Turbulence Model Of Tangential Cylindrical Cyclone For Droplets Removal From Gas Streams   |
| <a href="#">SPT-04</a> | Performance Of Slotted Pore Microfiltration Membrane To Separate Oil From Water  |
| SPT-05                 | Bench- And Pilot-Scale Evaluation Of Co2 Removal From Natural Gas Stream Using Polypropylene (Pp) Hollow Fiber Membrane Contactors     |
| <a href="#">SPT-06</a> | Combination Of Ozonation And Absorption Through Membrane Processes To Remove Ammonia From Wasterwater                                  |
| <a href="#">SPT-07</a> | Recent Development And Potential Applications Of Electrodeionization (Edi)   |
| <a href="#">SPT-08</a> | Improvement Of Selectivity And Permeation Properties Of Ultrafiltration Membrane For Humic Acid Water Treatment : A Review             |
| <a href="#">SPT-09</a> | Trimethylamine Removal From Pure Methanol Using Ion Exchange Resin   |
| SPT-10                 | Room Temperature Ionic Liquids For Propyne-Propylene Separations: Theoretical And Experimental Investigation                           |
| <a href="#">SPT-11</a> | Pengaruh Suhu Dan Waktu Pengeringan Film Lateks Karet Alam Menggunakan Tepung Kulit Pisang Sebagai Pengisi                             |
| <a href="#">SPT-12</a> | Intensification Of Bioproducts Purification: A Perspective On Hydrolysis Of Lactate Esters   |
| SPT-13                 | Study On The Effect Of Moisture Content And Material Size Of Vetiver On The Yield And Quality Of Vetiver Oil (Vetiveria Zizanoides L.) |
| <a href="#">SPT-14</a> | Purification Process Of Tofu Waste Water Factory   |
| SPT-15                 | Produced Water Management Using Membrane Technologies  |
